GREEN CERTIFIED

Trim-Tex Vinyl Beads have always been produced with at least 70% Recycled Content.

Over 99% of our punch outs and out of spec product is recycled into top quality finished goods.

Vinyl Beads will never rust, so they'll last the life of your building. Excellent for oceanfront hotels and developments.

Trim-Tex 847 Spray Adhesive is VOC compliant in all states that regulate VOC content.

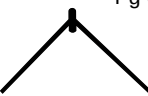

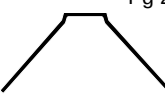

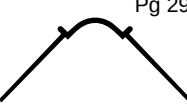

Trim-Tex has recycling programs in place for all corrugated, paper, skids and steel used in our operations.

Trim-Tex has a full line of layering beads allowing you to create Drywall Art with leftover strips of drywall that would normally be thrown away.

Trim-Tex Mud Set, World's Strongest Bead

What We Did...

Trim-Tex took 8 of the most commonly used corner beads in the industry and installed them on 32 outside corners (4 of each) with the same drywall compound. After the beads were installed and cured they were then pulled from their corners with a force calculating apparatus. The average was then calculated for the maximum force before failure. The data collected showed Trim-Tex Corner Beads having the strongest bond.
